

Oviparous Animal Pictures

Directions for Use: Print, laminate, cut apart. Place pictures inside plastic eggs.

Activity #1: Use these as a discovery activity to go along with the book [Chickens Aren't The Only Ones by Ruth Heller](#). To reinforce the vocabulary from the book, I have the children say "Tap, tap, the egg cracked. Who is oviparous?" before opening their egg to discover what animals are egg-laying.

Activity #2: Write the beginning letter on the plastic eggs and have the children sort the pictures by beginning sounds.
